

INFILTRATE

SHUTTLE 14

ADVANCED PENETRANT

100% ACTIVE FORMULATION / EXCELLENT PENETRATION
PERFORMANCE / ENGINEERED SPECIFICALLY FOR USE WITH
NEMATOCIDES / ALLOWS FOR LOWER USE RATES

Contains: Polyethylene Glycol, White Mineral Oil

Infiltrate is a hyper-concentrated dedicated penetrant which leverages proprietary, long-chain wetting agent technology to offer unparalleled speed and efficacy. Infiltrate is engineered to be compatible with, and enhance the efficiency of a wide-range of herbicides, insecticides and nematocides, allowing for more consistent results and lower use rates.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Specific treatment (see SDS) Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Wear protective gloves. If swallowed: Immediately call a poison center/doctor.

Application: Shake well before use.

Adjuvant:

Infiltrate excels at assisting in proper soil profile placement of pre-emergent herbicides, insecticides, and nematocides. A rate of 1.5 to 3.0 ounces per 1,000 sq. ft. is recommended.

Standalone Penetrant:

When using Infiltrate as a standalone penetrant an initial application rate of 2 gallons per acre is recommended, followed by 1 gallon per acre for maintenance.

Many pesticides will have stated adjuvant use-rates on their labels. In all cases, the pesticide manufacturer's label should be consulted and followed regarding specific adjuvant usage recommendations.
